Letter of Intent

With this letter, I formalize my intent to participate in the “MICCAI 2014 DTI Tractography Challenge on Peritumoral White Matter Anatomy for Neurosurgical Decision-Making”.

This participation will include:

- DTI tractography analysis of the workshop datasets
- Submission of a workshop paper and DTI tractography results according to the provided guidelines
- In case of acceptance, presentation of the tractography results at the workshop

I pledge that none of the MR datasets and associated segmentations provided by the organizers will be given or distributed to persons not mentioned above. I will use this data exclusively for submission to the workshop “MICCAI 2014 DTI Tractography Challenge on Peritumoral White Matter Anatomy for Neurosurgical Decision-Making”. If I use the results of algorithms in this challenge in scientific publications (journal publications, conference papers, technical reports, presentations at conferences and meetings), I will cite the journal paper about this challenge once it is in press. In advance of this publication, I will cite the website URL of the workshop (*).
